LIFEWORX LEADERSHIP

ABOUT

Lifework began in 1992 when William Armstrong, a Colorado media executive turned United States Senator, convened a meeting of marketplace leaders to cast a vision for transformation through Christ-centred leadership in the workplace. It launched in Orlando (Florida) and became so impactful that more cities in the USA wanted to be in on it. After this initial expansion in the USA, Lifework Leadership became global and now serve several cities around the world.

In 2015, the Lifework Leadership programme was launched in its first African city – Pretoria, South Africa! Since the programme's initial intake, leaders from different spheres of society are continuously being empowered as true City Changers. These influencers leverage their talents, skills, experience and leadership capabilities for the kingdom of God within their personal and professional environments. 16 cities within 6 nations, graduated close to 4,000 alumni who have completed this 9-month life-changing journey.

This is your opportunity to become part of the Lifework family!

Being part of Lifework Leadership helped me to look at the deeper meaning of business from a fresh biblical perspective. Journeying with other believers who also struggle with everyday challenges in the marketplace and engaging with these issues in a true biblical manner has been very refreshing. The programme's power lies in the relations one builds with fellow graduates, the stories of real life crises and ethical solutions.
