

LIFEWORk LEADERSHIP PRETORIA – EXECUTIVE OVERVIEW 2026

Dear Candidate.

Introduction

Lifework began in 1992 when William Armstrong, a Colorado media executive turned United States Senator, convened a meeting of marketplace leaders to cast a vision for transformation through Christ-centred leadership in the workplace. It launched in Orlando (Florida) and became so impactful that more cities in the USA wanted to be in on it. After this initial expansion in the USA, Lifework Leadership became global and now serves several cities around the world.

“Lifework leaders attest to living with greater purpose and intentionality. They’re more fulfilled in their work. And they’re having a measurable impact for God in our area.”

Stephan Tchividjian – President National Christian Foundation, South Florida, USA

In 2015, the Lifework Leadership program was launched in its first African city – Pretoria, South Africa! Since the program’s initial intake, leaders from different spheres of society are continuously being empowered as true City Changers. These influencers leverage their talents, skills, experience and leadership capabilities for the kingdom of God within their personal and professional environments. 16 cities within 6 nations, graduated close to 4,000 alumni who have completed this 9-month life-changing journey. This is your opportunity to become part of the Lifework family!

“The good influence of godly citizens causes a city to prosper.” Proverbs 11:11 TLB
